IMPORTANT NOTES

- OSSLT is a graduation requirement; if you were not successful, consider OLC 401
- If you are planning on taking a course in summer school, DO NOT select that course in myBlueprint; instead choose another elective credit (if you do not follow through with this, you MUST NOTIFY your guidance counsellor to ensure the class is added back into your timetable)
- We recommend you select 8 courses; by doing this it increases the number of available sections for classes (the number of sections of a class depends on how many students selected that class); this provides options for students when pathway changes are made the following year
- Part-time student status will not be permitted; this means that each student must be enrolled in a minimum of three courses each semester
- DO RESEARCH:
 - o Using the Course Calendar on the Guidance Page on you can easily see if grade 12 courses require a pre-requisite course. www.dpcdsb.org/AMBRO
 - o www.myBlueprint.ca has many great tools to examine your interests, skills and career paths
 - o <https://www.jobbank.gc.ca/home> - great site to examine careers in Canada
 - o www.ontariocolleges.ca - site listing all certificate, diploma and degree programs offered at Ontario Colleges
 - o www.ontariouniversitiesinfo.ca – site listing all degree programs offered at Ontario Universities
 - o www.ontariocollegeoftrades.ca – a great site that lists and describes the different skilled trades in Ontario and opportunities through these careers
